FOR IMMEDIATE RELEASE

Valin Corporation Makes *Modern Distribution Management's* Top 40

Sunnyvale, Calif. (August 1, 2012)—Valin Corporation, the leading technical solutions provider for the technology, energy, life sciences, natural resources, and transportation industries, made *Modern Distribution Management's (MDM)* Top 40 Industrial Distributors List in the recent 2012 *MDM* Market Leaders and Distribution Trends Report. Valin joined the *MDM* Industrial Distributors List for the first time this year, ranking 38th with an annual revenue of \$153 million.

"We are honored to appear on this list among so many great companies," said Joe Nettemeyer, President and CEO, Valin Corporation. "While our growth is attributed to many things, we remain dedicated – no matter our size – to providing customers with a value-added relationship that goes beyond the sales of products."

MDM is the only specialized information business that provides high-level in-depth resources for executives serving the wholesale distribution industry. The annual *MDM* Market Leaders report provides lists of the top distributors in 12 sectors as well as key trends and issues facing the independent distribution channel.
