**Valin Corporation Acquires Rosedale Products of California (Distributor),
Strengthens Presence in Filtration Industry**

San Jose, Calif. (June 2013)— Valin Corporation, a privately held, employee-owned company providing technical solutions for the technology, energy, life sciences, natural resources, and transportation industries, strengthens its presence in the filtration industry by acquiring Rosedale Products of California, a distributor located in Irvine, Calif. This acquisition not only furthers Valin's filtration capabilities, but also adds to its already vast portfolio of products and services.

“With the announced acquisition of Rosedale Products of California, Valin is now able to offer our valued customers an even broader range of solutions,” said Joseph Nettemeyer, President and CEO, Valin Corporation. “Through key strategic acquisitions, we are able to continuously grow our portfolio and increase our service capabilities.”

With this acquisition, Valin broadens the systems, services, and product offerings to Rosedale Products of California customers and is now able to provide them with a more comprehensive application-based solutions supplier to work with.

“Rosedale Products of California customers can expect to receive the same great service and products, and will continue to work with the same respected outside and inside sales personnel,” continued Nettemeyer.

Valin represents the leading suppliers in filtration systems technology. The company delivers a variety of turn-key filtration solutions to handle the most demanding requirements, providing a consistent reliable performance. For more information about Valin's filtration solutions, please visit <http://www.valin.com/systems/filtration>.
